| NO. | NAME              | DESCRIPTION   |  |
|-----|-------------------|---|--|
| 1   | Water Cover       | Protect the camera from outside water                             |  |
| 2   | LED Assistant     | Provide lighting during night time for better visibility.         |  |
| 3   | CCD Camera        | Capture the image to sent to the moniotor                         |  |
| 4   | Speaker           | Sound from the monitor is delivered                               |  |
| (5) | Calling Button    | Call the indoor phone to communicate                              |  |
| 6   | Microphone        | Delivers and sound voice when communication with the indoor phone |  |
| 7   | Screw Hole        | Install the screws  |  |
| 8   | Nameplate         | Show residential name   |  |
| 9   | Connection wiring | Connection with the monitor                                       |  |

## Specification

| Power                  | DC 14.5V                 |  |  |
|------------------------|--------------------------|--|--|
| Electric current       | Working≤ 200mA           |  |  |
| Camera lens            | 1/3 CMOS High Definition |  |  |
| Illumination           | 0.05LUX                  |  |  |
| Communication duration | 120s                     |  |  |
| Communication method   | Two-way                  |  |  |
| Working Temperature    | -20-55℃                  |  |  |
| IP rating              | 55                       |  |  |

#### Specifications of C741KP/C743KP series code access

# **ATTENTION**

- 1: Input a 4 Digit Password To Have
- The Door Striked Or The Lock Unlocked.
  2: The Original Factory Defaulted Password Is \*1234.

## **KEYPAD COMMAND (C743KP C741KP)**

Default master code:1234
Entering programming mode

1:Press the \* then 4 digit master code

2:If successful three tones will sound and the LED will flash

Adding user codes

1:Enter programming mode

2:Input the code 01-31 for normal operation,

32-40 for latching mode.

3:Enter the 4 digit code, if successful three tones sound if not 2 tones sound.

4:Press \* to exit

Deleting a user code

1:Enter programming mode

2:Enter code 01-40

3:Press # to delete code

4:If successful three tones will sound

5:Press \* to exit

Deleting a code from an unknown code

1:Enter progamming mode

2:Press # two tones will sound

3:Input 4 digit code to be deleted

4:Three tones will sound if successful

5:Press \* to exit

Deleting all codes

1:Enter programming mode

2:Press # two tones will sound

3:Press # again to hear a further two tones

4:Press # seven times to default all codes and settings (the master code will remain)

5:The system will resume after five seconds and tones

Changing the master code

1:Down power the unit

2:Hold \* and power up the unit, a long tone will sound

3:When the tone stops ,a short tone will sound and input the new 4 digit programming code

Set the lock time

1:Enter programming

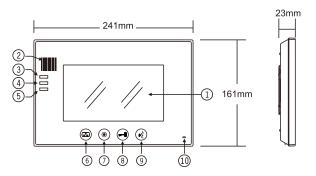

2:Enter 00

3:Enter the lock/delay operation time (01-99 seconds)

4:Press \* to exit
